

Access To Columbia University's Online Resources And Webinars

COLUMBIA GLOBAL CENTERS | SANTIAGO

We are coming to you in a new, online format!

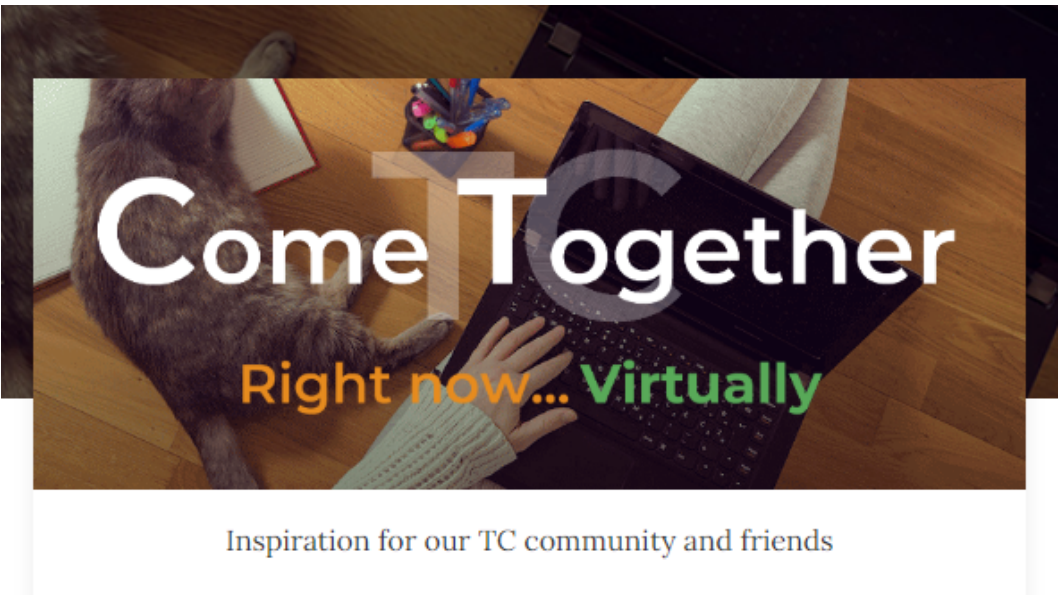

In this unprecedented time, we are committed to staying connected and to bringing you the world-class knowledge and programming you have come to expect and enjoy from us.

We are shifting our focus to online programming, where we can continue to engage you with regional and Columbia-wide expertise. There is a lot in the pipeline: on Monday, April 6, the Santiago and Rio Centers will host a live webinar featuring [Robert Shapiro](#), Professor of Political Science at Columbia, who will discuss the effects that the health crisis may have in the upcoming US Presidential Election. Stay tuned for more information.

Meanwhile, we want to make sure that you have access to some of the University resources, including the recorded webinars that have been recently offered, where you will hear from some of our leading faculty experts in public health, economics, climate change, and much more.

For directives on how to stem the spread of the virus, as outlined in the Covid-19 Resource Guide for the Columbia Community, [click here](#). Use this [link](#) for recommendations on how to create a daily routine during this pandemic, and this [link](#) to access Columbia's digital library collection.

Stay safe and follow best practices to keep healthy!

[Teachers College](#) (TC) has created a series of virtual events, with a wide variety of activites including story telling and literature reviews, fitness activities such as yoga and zumba, professional development workshops, games and muscial presentations.

All are welcome to virtually join the TC community. Use [this link](#) for upcoming online lectures, readings, concerts and more.
